

Women's advocacy program undertaking needs survey

The Women's Advocacy Program is distributing a survey to 4,000 women in Nelson. The survey is designed to ascertain what direction Nelson women would like us to take.

We want to know what Nelson women want to enhance their lives. Your opinions about your lives are needed, as well as your hopes, dreams, wishes and ideals for your future.

The W. A. Program is an advocate service for the women in the Kootenay's.

This service represents all women who deal with institutions, services and the red tape that accompanies those dealings. We are set up to act as an intermediary between you and the cause of your problem.

The W.A. Program's aim is to help eliminate discrimination

against women in the Kootenay's and to do that we have to hear from you.

One way you can help is by answering and returning this survey,; another is communicating directly with us.

Please phone 352-9916 or drop by 307 Vernon Street, Tuesday to Friday. There is always someone here to talk to.
